ANDERSON & LUSBY

CITY NEWS

Liberal committee rooms, 'Phone 64, over Daily News Office, opposite Carnegie library, are open each day and evening. Everybody cordially invited.

Dance! Dance! At Eagles hall, Monday, September 4. Rushton's orchestra. Admission $1.00.

Mrs. T. F. Sinclair and daughter left for the east this morning. They will visit Toronto and other points.

The classiest lot of automobile robes ever opened up in Westminster are to be seen at T. J. Trapp & Co's.

Owners of city property are reminded that the date for saving the final rebate of 10 per cent on this year's taxes expires on Friday of this week at 5 p.m.

Mr. and Mrs. J. Bryson Moore, of Portland, are visiting relatives here on Second street. They are also visiting Mr. Moore and Miss Moore, of Vancouver, while in B. C.

T. H. Barbaree, of this city, has received notice of the death of his mother on Tuesday evening at her home, Grand Valley, Ont. She was 72 years of age. Mr. Barbaree left yesterday to endeavor to reach Grand Valley in time for the funeral.

This morning at eleven o'clock the board of railway commissioners for Canada will commence its sittings in the Vancouver court house. Several matters of considerable importance to this city will come up for hearing. The cases in which the board of trade are interested will be placed before the commissioners by L. B. Lusby, J. H. Duncan and the secretary of the board. A number of complaints from private industrial companies in this district form an important part of the agenda.

The catches of salmon on the Fraser were better yesterday. Local canneries reported as follows: Scottish Canadian, 950 sockeyes and 1750 humpbacks; Phoenix, 2500 sockeyes; St. Mungo, 1050 sockeyes, 2000 humpbacks and 400 cohoes; Brunswick, 500 sockeyes and 1800 humpbacks; Ewen's, 2000 sockeyes and 2000 humpbacks; Terra Nova, 1300 sockeyes and 18 000 humpbacks; Imperial, 1400 sockeyes and 1000 humpbacks. At the traps Anacortes took 35,000 humpbacks, and Bellingham 100,000 fish, including a few cohoes.

Owing to the outing of the Loyal Order of Lions at Ladner tomorrow the Transfer will leave at 10:30 a.m., instead of her usual hour, returning at 6:30 p.m.

The steamer Transfer will make the trip to Steveston and return on Sunday afternoons during the sailing season, leaving the B. C. Electric wharf at 3 o'clock. Round trip every Saturday, leaving B.-K. wharf at 2 o'clock.

Sent to Penitentiary.

Sault Ste. Marie, Mich., Aug. 30.—Mrs. Angelina Neapolitana, the woman who was saved from the gallows by the petitions of the women of the United States and Canada, was removed from the jail to Sault Ste. Marie, Ont., last night and departed for Kingston penitentiary, where she is destined to spend the remainder of her life for the murder of her husband on Easter Sunday last. Her young baby was taken from her and placed with a children's aid society.

New Wireless Stations.

London, Aug. 30.—The Guardian understands that a committee has been formed to consider the steps in the formation of a chain of British state-owned wireless stations throughout the empire. It is proposed by the home government representatives that Australia, New Zealand and South Africa be eventually included in the arrangement.

GRAND TRUNK ARRANGEMENT WITH PRINCE RUPERT CITY

Prince Rupert, Aug. 30.—On Saturday the citizens will be asked to vote to sanction the agreement made between the G. T. P. and the city, which lets the railroad company down with $15,000 a year taxes on $7,000,000 worth of property and gives other concessions.

In return the city gets several parcels of land and a guarantee that within three months the company will commence the erection of their machine shops, railroad station, etc., with the object of making Prince Rupert the terminal of the road.

A by-law to raise $650,000 for a waterworks, electric light and power plant will also be voted on at the same time.

HOW? IS THIS

When you want a piano do you go to a butter and egg store for one? Of course not. When you want insurance to whom do you go? Common sense tells you to go to a man who makes insurance and nothing but insurance his business. When you want any kind of insurance come to see me for it. That is my business.

G. T. P. TO BUILD A $25,000 HOTEL AT HAZELTON

HAD SOME QUICK JUSTICE IN POLICE COURT TODAY

In Less Than Half an Hour Joshua Robinson Was Charged, Had Preliminary Hearing, Was Committed, Tried by Judge Young and Sentenced to Six Months

Provincial Police proceedings in Prince Rupert as put in progress by Chief Owen, Magistrate McMullin and Judge Young this morning constitute a record for the city. To have a prisoner charged, put through his preliminary hearing, sent up for election at which he chose speedy trial, and sentenced all in twenty-nine and a half minutes is quite an achievement in police procedure.

The case was that of Joshua Robinson, an Indian, who was charged with the theft of a grip containing wearing apparel from a fellow countryman who himself did the Sherlock Holmes act in the first case and traced the missing property to the possession of Joshua.

Unlike his Scriptural namesake Mr. Robinson was unable to make the sun stand still in the heavens while he was brought to justice and so instead of a record delay like that over the biblical battle of old, there was the record just mentioned the other way.

Joshua was charged and came up for preliminary hearing before Magistrate McMullin. He was sent up for election before Judge Young, made his choice, was tried on the spot and sentenced to six months' imprisonment at Westminster. Whether he can make his prison walls fall down by lung and lip power as Joshua of old did with the walls of Jerico emains to be seen.

C. P. Hickman and D. J. McDonald were passengers by the Prince Rupert this morning.

Messrs. George Reid and Charles Bruting booked for Masset today through from the south by the Prince Rupert.

SHOT FINE BUCK

Good Hunting Within Four Miles of Prince Rupert

A beautiful 140-lb. four prong buck was landed at the wharf this morning. It was shot at about 4 o'clock yesterday afternoon on the northern slopes of Mount Morse not more than four miles from Prince Rupert by William Logan, a well known hunter of the district. Some splendid grouse were got also on the same trip.

GETTING ON THE ELECTORS LIST

Amusing Incident in the City Hall the Other Day Shows How One Man Feels About It.

City Clerk Woods is busy with the rush of applicants anxious to have their names put ouqn the register of municipal electors. The time for the closing of the roll draws near, and so do the shadows of coming events in the shape of mayoral and aldermanic candidatures. Get on the roll by all means, but don't be like Pat, the civic employee, who the other morning figured in a quaint incident at the City Hall.

"I want to register as a voter," said Pat to the City Clerk.

"Certainly," said Mr. Woods, "you sign this declaration that you have paid your road tax, that you are a householder or licence holder or that you are exempt from these conditions, and that you are a British subject. Just take off your hat while you swear to that."

"See here," said Pat. "I have voted at elections for forty-two years and more and never yet had to take off my hat to prove that I was a British subject and I'm not going to begin today."

"You'll lose your vote, Pat," chorused the bystanders.

"I don't care though I lose my head for it," said Pat with pride. "I'll not take off my hat at my time of life after voting for forty-two years without ever needing to do such a thing before to prove I am a British subject. There's no man'll make me do it."

And in spite of protests and persuasions Pat left the City Hall firmly resolved.

Sixty first class passengers, a large number of deck travellers, and a good cargo of freight and mail were brought in this morning by the Prince Rupert which arrived on time from the south after a good passage.

DUNCAN ROSS LETS BIG ORDER

Places Contract with Interior Lumber Company for $40,000 Worth of Lumber for Use on His Contracts.

Hazelton, Oct. 24.—Mr. Duncan Ross has recently placed with the Interior Lumber Company an order for $40,000 worth of lumber. In order to handle the work the Lumber Company have purchased a boiler from Foley, Welch & Stewart and are now moving it from Sealey to their mill near Two Mile. When the new boiler is installed the mill will have a capacity of about 15,000 feet a day.

EXODUS FROM YUKON

City of Seattle Passengers Report Yukon Still Open

Another big crowd of Yukon old timers came south by the City of Seattle this morning. The steamer was heavily freighted also. Fair weather accompanied her on the way from the north with occasional streaks of fog. Her passengers reported the Yukon not yet icebound.

AWED BY THE BOILED SHIRT

Police Chief Vickers Finds Immaculate Evening Dress as Effective as a Gun to Quell the Unruly.

Attired immaculately in evening dress and wearing the smile that always assures law-abiding citizen or criminal alike of a square deal, Chief Vickers, of the city police force, attended the Waanderers' Club dance last night and laid himself out for a good time. But chiefs of police like other toilers for the public good are liable to have their good times rudly disturbed by the stern call of duty, and so it was with "Billy" Vickers last night.

Right in the middle of a two-step came an urgent call for the chief of police. Report said that there was a man threatening mischief with a revolver on Centre street of Sixth. With never a symptom of disturbance the chief siepped quietly out to the scene. In a moment or two he returned quite unruffled and with never a blemish on his irradiant "boiled shirt." The trouble was laid—the gun-braudisher had been awed into better behavior—and Chief Vickers could enjoy the dance in peace.

OFFERED A JUDGESHIP

Ottawa, Oct. 25.—It is understood that Hon. J. J. Foy, Attorney General of Ontario, has been offered the appointment to the vacancy on the Ontario High Court bench caused by the death of Mr. Justice MacMahon last spring. Should he decline the appointment will likely go to Houghton Lennox, member for South Simcoe, whose acceptance would provide a seat for Hon. W. T. White. The Judicial appointment should go, however, according to precedent to a Roman Catholic to which church Hon. Mr. Foy belongs.

KITSELAS TUNNEL TO BE COMPLETED BY NOV. 30

Work on the G. T. P. is Rushing Forward—Ald. V. W. Smith Had to "Mush It" to Get From Shandilla to Hazelton—Large Hotel to be Built at Hazelton

News from up river tells of Prince Rupert's esteemed Alderman, V. W. Smith, having to "mush it" with his pack on his back from Shandilla where the steamer Conveyor was sent back to Rupert, up to Hazelton. All who know the alderman will have no doubt that he "made it" all right though he wasn't one of those who mushed it with the Mayor over the Morse Creek watershed.

Kitselas Tourist Centre

It is stated that the G. T. P. have acquired a long lease of Indian reserve at Kitselas on which they are to erect a huge tourist hotel at a cost of $25,000 the lease of the land to cost them $100 a year. Extensive improvements to encourage tourist traffic are planned for the immediately adjacent district — including bridges to various picturesque islands on the Skeena.

Tunnel and Bridge Work

The Kitselas tunnel will be through by November 30th, says the latest report, and the first great caisson of the Skeena river bridge near Hazelton has been launched. When the tunnel is through supplies and bridge steel will be sent in by rail, and much more rapid progress will be made on the whole extent of line awaiting the tunnels and bridge. Immense quantities of supplies will be carried into interior points by pack train this fall the work being now under way. Hundreds of horses are being employed packing the outfit of the old town of Hazelton to the new townsite where the Foley, Welch & Stewart contracting outfit have located for the conduct of the last great contract for grading the G. T. P.

HE WRESTLED FOR LIFE AGAINST A BIG BUCK DEER

Alarming Experience of Sheriff W. J. Law—Buck Attacked Him and Threw Him in Lake—Man and Beast Fought Together in the Water

Revelstoke, Oct. 25.—Sheriff W. J. Law has returned from a trip to the Arrow Lakes with an exciting story of a hand to hand fight he had with a big buck deer.

Mr. Law was sitting on a rock fishing, early in the morning when all of a sudden a big buck deer sprang from the bush which was in close proximity to the water, and charged the sheriff, knocking him into the icy water. On rising to his feet again the sheriff found the animal coming at him again with both front feet in the air and striking for his breast. With considerable presence of mind Mr. Law threw his hands in front of him and giving them an outward sweep separated the limbs of the deer, which came down over both wrists and severely skinned them. By this action man and deer were in close embrace and both in the water. The sheriff then realizing that something must be done as the animal was apparently desperate, grappled with him and succeeded in holding the animal's head under water for some time. The chilling effect of the water, however, on the sheriff, who has been ill for some time, and the terrific struggle which he had with the animal, had considerably fatigued him and he decided that it was best to let the deer go before he could drag him out into deep water or get the best of him in his death struggle. This he did and much to his surprise the animal ran back into the bush.

W. H. Wark arrived from the south this morning by the Prince Rupert.

Cold nights—warm blankets—all kinds.—Wallace's. 2t

TINY SCHOONER MAKES TRIP TO THE SIBERIAN COAST

Power Boat Polar Bear of Seattle, Has Adventurous Voyage—Is Laden Down With Valuable Cargo of Furs and Walrus Skins

Seattle, Oct. 24.—Laden with walrus skins, heads and tusks, and with a snarling, snapping bear cub from the Arctic, caged on her deck, and bringing stories of adventure in the Pribiyoff, Bogoslof and Walrus islands, and on the treacherous Siberian coast, the staunch little power schooner Polar Bear, Captain Louis Lane, arrived on the Sound today. On the bowsprit when she entered the slip at pier 7 was the had and skin of a huge polar bear, spread eagle fashion.

Captain Lane's prize story of adventure is his capture of a white cub which rattles the bars of his cage on the deck of the Polar Bear, and does not seem inclined to make friends with anyone. Captain Lane and a few of the members of his party had gone into the interior of Wrangell Island, near Doubtful Harbor, when they came upon a mother bear and the cub. Old Bruin was killed after an exciting chase, but the great problem was the capture of the cub. Rope was obtained from the schooner, and after the cub had been entangled in its fect were bound and the struggling animal placed aboard the vessel. Three bears were shot at Cape Blossom and their skins preserved.

At Walrus Island Captain Lane and his party found birds so thick that it was almost impossible to walk without tramping on them. On St. Matthew's Island they saw many valuable fur bearing animals unmolested by hunters. At North Cape they were told by the natives that the Polar Bear was the second vessel to visit them, although many had passed in the distance.

ITALIANS RIVAL THE JAPANESE

Have Placed 60,000 Men in Tripoli Within a Few Days of Starting Operations.

Rome, Oct. 24. — Defending Italy's apparent tardiness in sending her expeditionary force to Tripoli so long after the war was started, naval authorities point out that the Japanese, who had been for years preparing for the campaign against Russia landed only 17,000 soldiers in Korea in the first expedtiion, and a similar number two days later, beginning operations more than forty days after the landing. Italy sent 60,000 men within a few days, prepared for immediate operations.

WILL ENLARGE PLANT

Vancouver, Oct. 25.—It is reported here that the Powell River Paper Comapny intends to double their present capacity by installing additional equipment to the value of $1,000,000 making the total expenditure on Powell River about $3,500,000.

Inquiries at the hospital today show that Mrs. James Jabour whose serious illness was announced in yesterday's News is fast recovering her strength. Her case is being attended to by Dr. McNeil, who has had charge of the case all along.

Coats for chindren—big range.—Wallace's. 2t

PRESBYTERIAN CLUB

Winter Programme Opens Tonight with Debate on Commission Government—Mayor to Preside.

Tonight at 8 o'clock the Presbyterian Club will initiate the winter series of debates, addresses and social evenings. The programme for the winter will be announced tonight and is quite up to the standard of last year. The leader each evening is an expert in his subject, and is followed by open questioning and discussion. For example, Judge Young will speak on "The Treatment of Criminals, Juvenile and Adult;" Mr Stork on "A Jaunt Through Europe;" while a couple of labor leaders will speak on "Tolstoi's Doctrine of Labor." An amusing feature in a few weeks will be a Mock Election, in which three mayoralty aspirants will deliver typical addresses.

The meeting tonight is a discussion of the question "Government by Commission." Mayor Manson will be chairman and questions and criticisms from the audience will be invited.

All the meetings of the club are open to the general public, and are held in the Presbyterian Hall on Fourth avenue, a block east of McBride.

The Mayor and Mr. W. W. Foote of Victoria, engineer of the Provincial Public Works Department staff, paid a visit today to the new Government wharf here now about complete except for warehouses.

PORCHER ISLAND IS NOW MAKING PROGRESS

Wm. Sims, Who Used to be in Prince Rupert, is Back With Glowing Report—Has Turned Rancher and Fisherman Now—Great Place for the Children

Up to Rupert for a trip from Porcher Island where his happy wife and young family have been settled for several seasons now, William Sims formerly a city employee on the first Woodworth Lake surveys when he was launchman, has a good account to give of affairs on the island of his selection for ahome. His ranch on Porcher is doing exceedingly well. His garden flourished this year so that he had abundant vegetables, and has still some to spare. Potatoes on his land made good, were fruitful, and multiplied according to the commandment given them, by energetic cultivation of the soil. Best of all the children thrive, and go to school regularly, doing well at their lessons, and still better in the health school of open air, Porcher Island, their big playground.

Since the fall commenced two new bridges have been constructed at a cost of $200 under direction of Mr. J. R. Beattie, of Prince Rupert, from Government appropriation, and these greatly facilitate the journey of the youngsters from Mr. Sims' home to the schoolhouse. Mr. Sims reports that his neighbors too are prosperous, and have found their efforts to develop their pre-emptions, and ranches to repay them well. But Porcher Islanders one and all are most anxious to impress on the outside world and particularly the politicians who sometimes visit them, that they believe in their Island's prospects all the time, and desire the very best help the powers that be can give them to aid in the upbuilding well and coming summer resort.

PURSER GUPTILL SLOWLY RECOVERING

Though Terribly Hacked With an Axe About the Head and Shoulders, His Magnificent Vitality Will Pull Him Through—Skagway Police Have Made Arrest

Purser Charles Guptill, of the Alaska Steamship Company's shore offices at Skagway, is making a slow recovery from the terrible injuries inflicted upon him by his murderous assailant recently.

News was brought in by the purser of the City of Seattle this morning that Guptill would probably recover, though his injuries had been shocking. The robber had hacked and gashed his victim all over the head, shoulders and neck, and only Guptill's magnificent vitality kept him alive. He lay at death's door for two days. It was just touch and go whether he would live or die, but before the City of Seattle pulled out it was known that the purser had a chance of recovery.

Meantime the police had a man in custody who is believed to be Guptill's assailant, but the evidence to convict is not complete yet, though the chain of circumsyences seems incriminating. The man is a foreigner. It is possible that considerable delay may be occasioned over the conviction owing to the precarious state of the victim whose evidence if he continues to mend, will be required.

Mr. Lou Hansen, freight solicitor for the Tacoma and Vancouver Steamship Company, says:

"Guptill is a man of exceptional nerve, though small in build. It is certain that he put up a fight, for he would never allow the office to be robbed without a struggle. He was held in the highest esteem by all who knew him. He will be remembered by thousands of Alaskans who travelled with him during the years he was on the northern run."

MRS. DAVIS ARRIVED

Wife and Family of the City Engineer Will Take up Home in Prince Rupert.

By the Prince Rupert today there arrived Mrs. Davis, the wife of Colonel W. M. Davis the city engineer, with their son and young daughter. Colonel Davis has been leading a bachelor life during the past eighteen months, since he took charge of the engineering department. Needless to say he was one of the first in the rush to the wharf when the Rupert's whistle sounded

TO REPAIR WRECK

Porcher Island Steam Launch Recently Imperilled to do Service Again.

News was brought over from Porcher Island yesterday afternoon by Mr. William Sims, a rancher there, that Mr. W. H. Miller whose launch the "Aswallowgott" (an Indian name, by the way, which very few can spell) has succeeded in getting the wrecked boat in shape for survey and repairs. He had her beached, and lightened of her cargo, and has discovered that though badly shattered the hull can be repaired. has begun on the boat, a Miller calculates on havi afloat again before the the month. The engine w little damages, by water.

Pantorium Pioneer Cleaners,

LADY QUALIFIES FOR WHITE HOPE

Mrs. Kelly who Weighs but 99 Pounds Knocks out Former Heavyweight Boxer in One Round on Her Doorstep.

(Special to the Daily News)

Chicago, Oct. 25.—The wife of James Kelly, former heavyweight boxer, weighs exactly 99 pounds, yet—

"I expected a kiss when I entered the door," said the former pugilist, "but instead got a left jab on the mouth, followed by a knockout. When I woke up everything was dark and she had gone back to bed."

"You're a 'has been' said the court, "and if you don't want to fight you'll have to get home earlier."

WILL STAY IN RUPERT

Mr. and Mrs. H. F. MacRae Have Taken up Residence on Fourth Avenue.

Mr. and Mrs. H. F. MacRae who recently arrived in Prince Rupert from their honeymoon trip

Vancouver, Oct. 25.—It is reported here that the Powell River Paper Comapny intends to double their present capacity by installing additional equipment to the value of $1,000,000 making the total expenditure on Powell River about $3,500,000.

ROSSLAND PASTOR FOR POWELL RIVER

Rev. J. A. Dow to Leave Golden City—Congregation Express Regret at Loss

(Special to The Daily News.)

ROSSLAND, B.C., Nov. 3—Rev. J. A. Dow, pastor of the Presbyterian church here, has received a call to Powell River, 70 miles north of Vancouver and a meeting of the Presbytery has been held to deal with the matter.

The invitation is an attractive one as there is a wide field for work. The situation is unique as all the Protestant congregations have united to form one church. The people are setting to work at once to build a fine new house for a manse and they pay all expenses of transportation, personal and household.

Dr. Gunning and C. E. Fraser who had been regularly appointed by the congregation here Sunday evening represented the congregation at the Presbytery meeting and expressed their own and the people's regret at Mr. Dow's going. They spoke of the happy relations existing between pastor and people during the three years and conveyed earnest wishes for success in the years to come.

H. H. Johnstone, clerk of session, who is a member of the Presbytery, also spoke and expressed the hope that Mr. and Mrs. Dow would make as many good friends in Powell River as they had done here.

Members of the Presbytery spoke in an appreciative way of the large share of work done by the pastor of Rossland congregation throughout the bounds of the Presbytery. At present he held the position of moderator of the Presbytery, was convener of home missions in West Kootenay and was interim-moderator of Nelson congregation. The clerk was instructed to draw up a suitable minute to place on the Presbytery records.

Rev. G. A. Hackney of Trail was appointed to officially declare the pulpit vacant on Nov. 12.

Rev. Alex Wilson of Hosmer will give supply in the Presbyterian church on Nov. 19, and the three following Sundays. Mr. Dow preaches his farewell sermon on Sunday, Nov. 5, and leaves on the Monday afternoon train. He will spend some time in Vancouver on his way through

KURMEEN MAY BE SUICIDE

Inquest on Body of Man Found With Bullet Through Brain—Greenwood Fair Profitable

(Special to The Daily News.)

GREENWOOD, B.C., Nov. 3—An inquest is being held today into the death of Thomas Kurmeen, who was found dead in his cabin near Eholt, with a bullet in his brain. It looks like a case of accident or suicide. The Elks have taken charge of the funeral and Kurmeen will be buried in Spokane today. He was a native of the Isle of Wight and 50 years old. He was an old timer in the Boundary and owned a ranch near Eholt.

John Barclay has moved to Spokane. After paying all expenses the Greenwood fall fair netted a profit of $300.

Baird Dubar will not operate his saw-mill at Rock Creek until next spring.

R. H. Diondale has bought the skating rink in Phoenix from Ross and Prendergast.

This year on his ranch near Eholt, Enoch Moore raised spring wheat over five feet high.

W. Jenks has retired from the milk business and has sold his 20 cows to Jerome McDonnell.

A. S. Black, city solicitor, is moving his office into the quarters formerly occupied by Thomas Thomas.

At present there are no resident ministers in Greenwood.

There is an excellent opening for a dentist in Greenwood.

The Oddfellows' annual ball on Tuesday night was attended by 75 couples and the affair was a complete success.

Kinney McDonald have dissolved partnership and in future Charles Kinney will conduct the business. Mr. McDonald will spend the winter logging near Beaverdell for Frank Burkless.

Archie Gillis has taken over the Palace livery stable and this winter Frank Burkless will confine his attention to getting out timber from his limits near Beaverdell. He has a contract from the Yale-Columbia Lumber Co. for 5,000,000 feet of logs.

The force of miners has been increased on the Argo tunnel.

MANY ROSSLAND MEN MINE AT HAZLETON

P. J. Higgins Tells of Development And Good Prospects of New Northern Camp.

(Special to The Daily News.)

ROSSLAND, Nov. 3—P. J. Higgins has just returned home to Rossland after spending six months working on his mining claims in the Dalbime mountain in the Hazleton district. He says that all the prospects in that neighborhood are looking well, as most of the prospectors have been working on their claims during the summer. The Silver Cup and Sunrise properties have reached what is known here as the first stage of a mine, having attained a depth of 450 feet, and in the tunnels there is clear ore one or two feet in width. The Silver Standard was bonded a year ago by D. McLeod, Angus Stewart and A. L. McHugh. The property has rich ore at 50 feet depth, running remarkably high in value. It has hundreds of tons ready for shipment in the spring if the road is at New Hazleton.

The Harris brothers, formerly of Rossland, did some $6,000 worth of work on their property before placing the stock before the public. They sank two shafts, one 45 feet and the other 40 feet, and there is ore all the way down. Tunnels are driven on two veins and there are three fissure veins all showing ore in different shoots. This property will make one of the best paying mines in Hazleton.

On another property owned by Rossland men, and managed by James X. Smith, a 40 foot shaft has been sunk, and there is good ore at the bottom. There is every prospect of their making good with a little more work as it has shown much improvement with the work already

Essential to Comfort

PERFECTION SMOKELESS OIL HEATER

Warmth is essential to comfort. As you grow older, it is hardly less essential to health.

Get a Perfection Smokeless Oil Heater, and you keep warm and comfortable in your home, no matter what the weather without.

The Perfection gives a strong, widespread heat, and gives it quickly. It is always ready for use and burns nine hours on a single filling—no more trouble than a lamp. It can be carried anywhere; no pipes, no wires, no flues; no smoke, odor or dirt.

The heater that gives complete satisfaction.

This year's Perfection is finished in either blue enamel or plain steel; nickel trimmings; light and ornamental, yet strong and durable as can be made. All parts easily cleaned. Automatic-locking flame spreader prevents smoking.

Dealers everywhere; or write to our agency at

The Imperial Oil Company, Limited

EASILY PROVED.

To try "King George IV" Whisky once is all that is needed to ensure its continuance—that is a certainty. Connoisseurs proclaim it "pure, exhilarating and beneficial." It is the Whisky of Whiskies.

The Value of an Industry

So much has been written and said of the tremendous increase in values as the direct result of the coming of the **Big Car Shops to South-East Calgary** that the following interesting calculation has been made of what an industry employing 1,000 hands means to a community.

It increases the population by 5,000 consumers.

It adds $90,000 to the value of public utilities.

The assessment is increased by $600,000.

It pays out annually in salaries and wages $880,800.

It represents through its buildings, and its houses and its employees an investment of $2,000,000.

The annual expenditure in food would be: $63,000 in meat, $6,500 in potatoes, $5,000 in sugar, $15,200 in milk, $55,700 in butter and $27,600 in eggs.

Summed up this means that an industry employing 1,000 hands is worth $21,600 a year to the farmers of the district.

The expenditure in clothing would be $168,750.

With the annual payment of taxes added to the total expenditure on buildings, food and clothing, you have in all $2,428,350 turned into the town in one year through the coming of one great industry.

The above is culled from the phamplet issued by the "Publicity Branch of the Canadian Pacific Irrigation Colonization Company," under date of September 30th.

Now add to this the **One Big Industry**, namely, the C.P.R. shops. This plant alone will employ approximately 6,300 hands, so just multiply the above figures by six and we have something to talk about, and remember we are only at the beginning of things in the building up of the **Industrial Section in South-East Calgary.**

Mr. Price of the C.P.R. has told the city to expect 10,000 people in East Calgary. **Just think of it!** If 10,000 people are to be in **South-East Calgary** as a direct result of the coming of the **Big Car Shops** of the C.P.R., what will it mean when the yards and roundhouses, and possibly in time the shops of the G.T.P. and C.N.R. are located there?

Ask the Man Who Owns One

or more of the lots we sold him a few months ago in our first subdivision in South-East Calgary, what profit he will take on his buy. We have repeatedly offered **80 per cent. profit**, but no one will take it, and we do not blame them, as we think it will not be long before they will be able to get **200 per cent. profit.**

THIS IS THE DISTRICT WHERE BIG CAR SHOPS WILL BE BUILT

TAKEN FROM ACTUAL PHOTOGRAPH.

Of course there was some excuse for you in not buying these lots when we advised you, because then there was a doubt as to the location of the Big Shops, but now there is absolutely no doubt about this. We cannot understand why every person who has a few spare dollars does not buy at once and participate in the tremendous profits to be made by those who buy early.

C. N. R. Division Lots Offer Good Security

400 houses to be built almost within a stone's throw of our lots guarantees this, and we are offering these lots on such easy terms that you should grasp the opportunity to buy right now and buy as many as you can possibly handle. Make your money work. Remember we are the actual registered owners and the property was carefully examined before buying, therefore we can truthfully state that every single lot is perfect and a beautiful view is in fact

We Positively Guarantee Every Lot We Sell

and being the owners will give you an extension of time if you are unable to meet your payments at any time.

SPORTS

Collingwood Rangers struck a winning vein on Saturday against the 72nd Highlanders. The victory was not achieved without a struggle, and at one period of the game it looked as if the Highlanders would wear down the Rangers' defence. However, the Rangers kept their minds on goals, and in the long run claimed possession by 3 to 2.

BOWLING.

In the Commercial league for the People's Trust trophy, last night, the Real Estate team took two out of three from the People's Trust team. Frank Dill, of the Estaters, again carried off high average honors with 163. R. H. Corbett pulled off the high score, 175. The score:

PUBLIC HEALTH IN SOUTH VANCOUVER

South Vancouver, Dec. 11.—Health Inspector Pengelly has been stirring up the sluggards, under the health by-laws.

Hans Espland, Westminster road, Collingwood, forfeited $2.50 and costs on Saturday for keeping a live pig.

Claud Young, plumber, Main street, was this morning charged with keeping an accumulation of manure to the danger of the public health. Inspector Pengelly said accused had been warned. Magistrate McArthur imposed a fine of $5 and costs.

"People are so dilatory when notice is sent," said the magistrate to John McDonald, who was charged with allowing crude sewage to run from his premises.

The inspector said scarlet fever had broken out in that neighborhood. McDonald was fined $10 and costs.

INDIAN BOYS' PLAY RESULTS FATALLY

Vancouver, Dec. 11.—Word has just reached here of the accidental shooting at Shidegate of an Indian boy named Jeffrey Ross. The boy is now in the Queen Charlotte hospital in a dangerous condition, but hopes are entertained for his recovery.

Several of the Indian boys were playing with a .22 calibre rifle when it was discharged and the bullet struck Ross in the right temple. It entered the skull and lodged over the right eye. The boy was one of the most popular in the village and when the news of the shooting became known a subscription was taken up with the result that $270 was collected to pay his expenses while at the Queen Charlotte hospital.

CHINESE PREMIER ANXIOUS FOR PEACE

Shanghai, Dec. 11. — General Li Yuen Heng, the revolutionary commander, has telegraphed from Wu Chang to the representative of the imperialist party that the Republicans had decided to select Hankow as the place for the meeting of the peace congress. Tang Sha Yi, representative of Premier Yuan Shi Kai, left Peking yesterday to participate in the negotiations with the revolutionists, among whom are delegates from various provinces.

The imperial government professes confidence that a limited monarchy will be acceptable to the revolutionaries, but Tang Sha Yi is empowered to agree to a compromise on practically any terms.

Tacoma's Bad Boy.

Tacoma, Dec. 11.—After holding up seven in six nights, a boy bandit, last night, with a companion, stopped a street car conductor, Harman Crowl, at Seventeenth and K streets. The bandit's gun discharged, the bullet hitting Crowl's cash holder and flattening out. Crowl flashed his ticket punch in the face of the thief and the boy ran off.

An English Chemist Has Discovered How to Grow Hair

In England the ladies have entirely abandoned wearing rats, which is due entirely to this new discovery.

It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-looked-for article is proven every day.

The Americans are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale.

This preparation is called SALVIA, and is being sold with a guarantee to cure Dandruff and to grow hair in abundance. Being daintily perfumed, SALVIA makes a most pleasant hair dressing. Ryall, your druggist, is the first to import this preparation into New Westminster, and a large, generous bottle can be purchased for 50c.

M'NAMARAS AT JAIL JUTE LOOMS

Brothers Take Their Places in Penal Institutions Reserved for Such as They.

San Quentin, Cal., Dec. 11.—John J. McNamara is no more the "big man," the powerful labor leader, the secretary of the International Association of Bridge and Structural Ironworkers. He is convict No. 25315. His brother James, who by his direction is said to have drawn a trail of death and ruin from coast to coast, is convict No. 25314. They are milling jute today, a task James may continue until death, and that John J. will surely have for many years.

The McNamaras arose early today. They were out of their cots and at the doors of their cells at 6:50, just as the dawn was driving away the mists about the prison. Then a short breakfast came, and at 7:15 the looms in the jute mill began the clang and clash which will ring in the ears of the dynamiters until their debt is paid.

There is a chance that James B. McNamara, however, will escape the jute mill. He is a printer, and as such may be used in the printing plant of the prison. Today or tomorrow he will be examined for tuberculosis indications and, failing these, he may obtain the privilege of the type case—a privilege much esteemed in San Quentin. What John J. will ultimately be employed at is yet uncertain. For the present he will weave jute.

The future—that is, doubtless, the whole thought of both men. James B. McNamara's mind may be focused eight years from today, when he shall be permitted to ask for parole. John J. McNamara looks ahead five years, when he, too, may ask for freedom.

Blind Pig at Powell River.

Vancouver, Dec. 11.—Blind pig operators in the Powell River district are fated to run into a lot of hard luck steered their way by one S. Marshall, provincial constable of Van Anda. The first offender to be gathered in was Archie Schournlere, who appeared before George E. McFail, justice of the peace for Powell River, last Saturday and was assessed a fine of $100 and costs with the option of two months in the government employ. The magistrate stated that his leniency was prompted by the fact that the accused occasioned the first prosecution of the kind in Powell River, but that Schournlere's successors would be given the limit laid down in the code. A brace of card sharpers were given a word of advice and sufficient handicap to get from the police court down to the steamer wharf in advance of the provincial officer. They accepted both and disappeared.

PLOT AND INTRIGUE RIFE IN PORTUGAL

Lisbon, Dec. 11.—Another serious plot has been uncovered. The blue jackets on the cruiser Sao Gabriel had planned in conjunction with the Sixteenth infantry and civilians to attack the Republican guards, which regiment, on account of their having been the royal bodyguard have always been suspected of lukewarm devotion to the republic.

The authorities circumvented the plot by sending the Sao Gabriel to the Azores and withdrawing the guard patrolling the streets. Great agitation prevails in the city.

NO GENEROSITY IN FEDERAL POLITICS

Ottawa, Dec. 11.—At a conference held here between Dr. Maloney, the defeated Conservative candidate in South Renfrew, and an Ontario minister, it was practically decided to oppose Hon. G. P. Graham in South Renfrew, despite the compact entered into by the Conservative executive of the county to give him an acclamation in return for the election of T. W. McGarry to the provincial house, without opposition. A convention will be called in the course of ten days to name a candidate and Dr. Maloney will in all probability be the choice. The federal Conservative organization says it is not bound by the terms of the agreement entered into.

Are You Puzzled To Know What To Give Your Boy For a Christmas Gift?

Let us help you with a timely suggestion. Give him one of our attractive HOME SAVINGS BANKS, with a little bank book showing $1.00 to his credit, and some jingling coin in the bank as a start. A little judicious oversight on your part will enable the youthful depositor to add a little frequently to his credit during the year, thus fostering principles of industry and wise economy, which will have a lasting and far-reaching effect on your boy's character, and at the same time giving him genuine pleasure. Remember we pay 4 per cent on all deposits of $1.00 and upwards. Call and discuss the matter with us.

N. B.—The above suggestion applies with almost equal force to girls as well as boys.

The Westminster Trust and Safe Deposit Co., Ltd.

J. J. JONES, Mgr.-Dir.

28 Lorne Street New Westminster

FREE CHRISTMAS PRESENT WORTH THOUSANDS

Start your boy right. eGt a little Savings Bank from the People's Trust Banking Department in which he can put the dimes and nickels he earns. The banks cost you nothing. Simply deposit a dollar to the credit of the boy's account. The bank cannot be opened except at the offices of the People's Trust Company. The money is then counted by the boy and the cashiers at either of the company's offices in New Westminster will show him how to make out a deposit and place the money to his credit. Your boy will get 4 per cent interest on his deposits and can draw cheques against in the same as any grown-up does at the bank.

Think of the effect on the character of your boy or girl a bank deposit of their own has. It is the first step to a successful career, teaches economy, the value of saving, instils self-reliance and generally equips your child for manhood.

It costs the boy nothing to have an account at our office; he gets 4 per cent interest, a good banking training, and we get the use of the money for one day, two days, or just as long as it is left with us. Money is subject to withdrawal at a second's notice.

NEW FISH INDUSTRY

Result of Earl Grey's Enterprising Work.

TO OPERATE AT SKIDEGATE

Latest Venture of Grimsby Fisheries Magnate May Have Great Result for British Columbia.

Victoria, Dec. 11.—A new concern, known as the B. C. Fisheries Ltd., has been floated, with Sir George Doherty, of the great Grimsby herring industry, at its head, with a capital of $1,259,000.

Two steam trawlers, the first of a large fleet which will include 20 or more, will be brought out.

A large plant costing $250,000 will be erected at Poacher Island and at Skidegate Inlet.

Arrangements have been made with the Grand Trunk Pacific Railway company to divide trackage, etc.

The new fishing enterprise is the result of a visit which Sir George made two years ago, when at the instance of Earl Grey he investigated the fisheries of the province.

G.T.P. BUILDERS WELCOME WINTER

Ice on Northern Fraser Offers Opportunity to Rush in Supplies for Spring Work.

Winnipeg, Dec. 11.—"The best news I have heard this year," declared Timothy Foley, upon learning that the ice on the Fraser river would bear teams as far as Tete Jaune Cache. Foley, together with Welch and Stewart, of the contracting firm who is handling the construction of the Grand Trunk Pacific, spent several days in the city, during which time Foley had a long conference with General Manager Chamberlin, overrushing to completion the transcontinental line.

"We must start to work as soon as the weather will allow it in the spring," Chamberlin said as the two parted, "and the thing to do is to find out if there is any way of getting our supplies in there, ready for the opening of work, during the winter."

It was in this connection that Foley made inquiry as to the stability of the ice on the Fraser river, and found definitely that the Fraser is frozen from two to three feet deep during the winter, and that until late in February it will present a fine highway for transporting supplies to Tete Jaune Cache.

"We will get our teams in there right away," said Foley, just before leaving for the west, "and I think it will be an easy matter to distribute all supplies during the winter. The section of the road upon which work will be opened up in the spring is that from Tete Jaune Cache to Aldermere, in Bulkeley valley."

DYNAMITE FOUND AT LOS ANGELES

Large Quantity of Explosive Discovered in Dark Doorway Leading to Laundry.

Los Angeles, Dec. 11.—A police dragnet is being spread today to bring within reach of the law the culprits who placed sufficient dynamite to wreck a skyscraper in a dark doorway leading to the engine room of the Munger laundry on South Los Angeles street. The police are of the opinion that the explosive was placed at this point by someone who feared the result of the nation-wide investigation recently started by the federal grand jury.

All of the dynamite was contained in the original box marked "No. 2 giant powder, San Francisco, ten pounds," and was found to contain ten sticks about seven-eighths of an inch in diameter and 12 inches long.

ONTARIO ELECTIONS.

Toronto, Dec. 11.—Several Liberal gains are recorded in the elections, but the Whitney government has been returned to power by a large majority.

With eight seats still to hear from, the Liberals have seven six.

In a house of 106, as matters stand, the Liberals number 23.

Later returns may add to this number.

SITE OF INDUSTRY SCENE OF ACTIVITY

Will Unload Machinery for Paper Mill Today—Represents Investment of $125,000.

All is activity and has been for some weeks past at the Western Paper mills, Sapperton, where Manager Noble Heath is hard at work preparing to instal the huge machinery, which is waiting on the Great Northern tracks. This morning will be a great day for him and his gang of 15 men, for the first car will be run on to the company's siding and the first carload will be unshipped. The siding was only completed last Friday, but the cars have been gradually accumulating until there are now 12 waiting to be unpacked.

The last work on the unloading platform was being completed yesterday afternoon, and soon the huge buildings will be thronging with the stir of many workmen engaged in assembling the component parts into the great series of machines, that is to manufacture the coarse paper for the West of Canada. Some of these sections weigh as much as four tons apiece, and the work of setting them up will not be a light one. Mr. Heath, however, has spent his whole life in paper mills, and is well known all along the coast, where he is identified with some part of every mill in operation today.

The building of the company covers an area of almost an acre in extent, and is three storys in height. The machinery will be placed in the second story right through, while some of it will also be placed in the upper one, which, however, will be mainly devoted to storage purposes. In the basement will be the power plant. With the exception of one steam engine this will be operated by electricity supplied by the Western Canada Power company. When everything has been installed, about $125,000 will have been invested in the plant and building. "It is a very large building, that is true," said Mr. Heath, "but in every other mill there is not enough room, and I meant to have plenty of space here at any rate."

We are trying to get started on March 1," the manager replied in answer to a question. "When we do, we will have an output of about 25 tons a day."

Only the coarser kinds of paper will be manufactured by this company, as the Powell River mill can supply all the newspaper that the West of Canada can use for some time to come. But box boards, and building papers of all kinds, heavy Manilla and fibre papers will be made here at the Brunette river, while the finest kind to be turned out will be butcher paper.

TEXAS ORATOR IN FINE FRENZY

Denounces as Political Cowards Men Who Vote for Big Graft in Shape of Pensions.

Washington, Dec. 11.—A fiery denunciation of "political cowards" who vote for "big graft" in the shape of pension legislation, was delivered in the house during the debate on the Sherwood "dollar a day" pension bill, by Representative Dies (Democrat, Texas), who shouted:

"This measure is nothing more than a gigantic $50,000,000 campaign contribution, to be made by men who are not voting their convictions on the pension question, but who are supporting the increase of pensions in the fear that if they fail to do so, they would lose their seats in this house."

Turning to the Democrats and shaking a menacing finger over the majority, Dies said:

"Flannel-mouthed oratory on the tariff question won't save you Democrats from the charge of having increased the federal appropriations. The Democrats are just as cowardly on this question as the Republicans. What are we going to do when we have a civil list? A million government employees are now demanding pensions. The president has capitulated. I take it that our leaders on the Democratic side will capitulate as readily as he."

OLD SAW MILL WILL BE REJUVENATED

The old Baily Lumber company's saw mill at Hammond, which ceased to operate some time ago, will shortly start up again once more, according to information received. The old machinery was removed, when the mill shut down, and new machinery will be installed by the new owners, who are planning an extension of the old plant.

The mill is located right on the banks of the Fraser, and the parties that are planning to operate it are said to have large timber holdings further up the river, which they intend to saw at their own plant, as soon as it is in operation.

DELHI DURBAR OPENS

Emperor and Empress Formally Crowned Today.

ORIENTAL MAGNIFICENCE

State Banquet Last Evening—Princes Chose Autos; Elephants Queen's Pet Aversion.

Delhi, Dec. 11.—Everything is in readiness for tomorrow's great show—the Durbar—and Delhi's normal population, 200,000, has been swollen to nearly half a million. Tonight there was a great state banquet. The streets are beautifully decorated and the city presents an appearance which for kaleidoscopic changes and brilliant show of color, suggests a scene from the Arabian Nights' entertainments.

British and regular native troops, independent native levies and princes' bodyguards, fill the streets, jostling in marching order through thousands on foot of Jats, Sikhs, Pathans, Shans, Parsis, Kashmiris, Brahmins, Buddhus Mohrattas and peoples of a hundred other different clans, classes and creeds.

There was another round of state processions this morning, when King George attended a military review and presented new colors to three British and two native regiments. The ceremonies were conducted on the parade ground at the big military camp, and were attended by most of the native rulers.

Added to the confusion of scrambling mobs and tramping troops are thousands of horses, mules, elephants, bullock carts, a babel of innumerable different languages and the honk honk of the motor car.

There are 4000 automobiles and taxicabs running between the city and the camps. They serve not only to help congest traffic, but to terrorize the natives. Many princes have chosen the automobile in preference to the elephant. This is in comfort to Queen Mary, with whom the elephant is not a favorite.

HORRIBLE TRAGEDY AT SOUTH VANCOUVER

Carpenter Returns from Work to Find Young Wife and Baby with Throats Cut.

South Vancouver, Dec. 11. — A tragedy of a sort rare in British Columbia was reported to the municipal police here this morning. G. H. Woolridge, contracting carpenter, returned from work in Vancouver on Saturday afternoon to find his wife of two years and their babe five weeks old, with their throats cut. A half open razor, smeared with blood, lay near by. Blood and general disorder in the room added to the horror of the spectacle that greeted the unhappy man.

Mrs. Woolridge expired before a doctor could reach the scene. The baby girl lies in a cot in the Grandview sanatarium, 715 Victoria Drive. The babe has a chance to live.

Mr. and Mrs. Woolridge had been married two years. The dead wife was 26 years old.

Mr. Woolridge said this afternoon that there was no question in his mind but that his wife, suffering from worry and physically weak from the effects of her illness, had taken her own life. When he left home on Saturday Mrs. Woolridge was in good spirits. An inquest will be held today.

SCIENCE HAND IN HAND WITH PEACE

Prizes Left by Will of Inventor of Dynamite Awarded to the Winners.

Stockholm, Dec. 11.—King Gustav yesterday presented the Nobel prizes, with the exception of the peace prize, to the winners. Mme. Marie Sklodowska Curie, personally received the prize for chemistry; Professor William Wien, of Wurzburg university, the prize for physics, and Professor Allevani Gulstraud, of Upsala university, the prize for medicine. The Belgian minister received the prize for literature on behalf of Maurice Materlinck, who is ill.

The Nobel prizes each amount to nearly $40,000.

Christiania, Dec. 11.—The Nobel peace prize has been awarded jointly to Professor T. M. C. Asser, of the Hague, co-founder of the Institute Droit International (Institute of International law), and the Austrian peace advocate, Alfred Fieder, of Vienna, editor of the Journal Fredenschwarts.

NOMINEES OF LABOR

Four Candidates For Aldermanic Board.

APPROVE LADY ASPIRANTS

Advanced Opinion Expressed on Municipal Affairs—Trustee Stoney Asks for Colleague.

At a crowded meeting of the working men of this city held in Eagles hall last night the labor candidates for next year's city council and school board were nominated. For the council Alderman Dodd and Messrs. Joseph Chapman, Moses B. Cotsworth and J. Duncan were chosen, after many nominees had to withdraw their names on account of their being unable to comply with the property qualifications. As nominees for the school board Trustee Stoney and Mr. H. D. Grant were accepted by the meeting, which at the same time endorsed the Local Council of Women's candidates, Mrs. Cross, trustee, and Mrs. J. R. Gilley.

Committee's Report.

General Secretary Grant, reporting on behalf of the committee which had considered the work of last year's labor members of the city council, and the school board, said that in the council Alderman Dodd had been instrumental in having the bread by-law passed. This made for pure bread and bread baked under sanitary conditions.

"In Vancouver," said the speaker, "some bread was baked in cellars. They brought down horse blankets to dry the bread for next morning."

Alderman Dodd had tried to get milk dealers licensed, and milk brought under civic inspection. He had also moved in the matter of the Shops Regulation act, requiring Sunday labor and a weekly half day off. The alderman had also advanced the claim that the union or living wage should be paid to all employed on city work. Trustee Stoney had also tried to get the same condition imposed with regard to school board contracts but he had been turned down.

The speaker condemned the $500 property qualification for aldermen and [illegible] $500 represents the excess of the mayor's brains over the brains of the

FRENCH CHAMBER ON MOROCCO QUESTION

Only Fourteen Members of Foreign Affairs Committee Assent to German Agreement.

Paris, Dec. 11.—In the chamber of deputies today consideration was commenced of the Franco-German agreements in regard to Morocco and the Congo. There is no doubt the conventions will be ratified, although they are not liked by many members. The chamber is limited in its action to accepting or rejecting the agreements or alterations.

The sentiment of the deputies found expression in a recent vote of the foreign affairs committee. This body has 44 members and only 14 assented to the agreements. At the same time there were only two negative votes, the remaining members merely abstaining from voting.

Mr. Hubert, of the foreign affairs committee, proposed that the chamber should refrain from discussing the agreements, but adopt them without debate and reserve criticism until a later date through a general interpellation upon the minister's foreign policy. A proposal such as this could not be initiated officially, but would have to be carried out by a previous agreement between all the groups. At first the idea met with favor, but present considerations foreshadow its failure.

The principal reason for the dissatisfaction of the deputies with the agreements has been the silence of the ministry in regard to Spain's position in Morocco under the new regime. The Franco-German convention specifically defines Morocco as the whole of the northwest corner of Africa, while the Franco-Spanish treaty gives to Spain certain portions of the country. Another source of discontent is over the question of how far the Algeciras convention remains valid.

The government has remained silent on these points, and several Paris newspapers have intimated that it is the purpose of Premier Caillaux to compel Spain to abandon Morocco.

It is also rumored that the French officials have caused an intimation to reach King Alfonso that the safety of the Spanish throne depends upon his attitude toward France. It is cynically alleged that it would cost less to foment a republican revolution in Spain than to declare war or purchase Spain's interest in Morocco.

SHALL Y.M.C.A. BE EXEMPT FROM TAXES

City Council Holds Short Business Session—Petition for Widening of Agnes Street.

It was a short session of the city council which was held last night, as the members were anxious to get through business in order to leave the labor representatives free to go to the meeting in Eagles hall. The most interesting question brought up was that of the exemption of the Y. M. C. A. from taxes, and from charges for water and light. It was pointed out that some time ago an almost unanimous plebiscite had been taken in favor of this action, but the city solicitor had ruled that it was impossible to do this under the Municipal Clauses act. Alderman Johnston pointed out that on previous occasions, when they had demanded an amendment to allow these privileges to churches and had been refused the people had voted against the step. In this case then the result of a request at Victoria for an amendment of the act might meet with a different result. The matter was referred to the mayor and the city solicitor for consideration.

The Submerged Pontoon.

A satisfactory statement with regard to the submerged pontoon at the end of Fourteenth street was made by the mayor, who said that the owner was ready to give his assurance that he would not hold the Dominion government responsible for any liability in connection therewith if they removed it. As this was the condition under which District Engineer Keefer was willing to take action, he was now only waiting for an answer from Ottawa to be able in all probability to go ahead with the work of removing this obstacle.

Building By-law.

The building inspector submitted a letter to the council stating for an amendment to the following clause of the building by-law, that "In the absence of definite subdivisions between the apartments of different families, eight rooms shall be considered as one apartment." He suggested that it would suit the city electrician better if this read "two or more

Letters from the firms of Wood, Gundy & Co., of Toronto, the General Securities company, of Vancouver, and Arthur William & Co., of London, England asking to be appointed fiscal agents for the city, were referred to the finance committee. The same committee submitted a report on the matter of the upkeep of the ditches in Queensborough with regard to which the ratepayers of that place had approached them. These ditches have been flooding the surrounding land, and arrangements are being made that the New Westminster council keep them in order, as it seems they should do.

Widening Agnes Street.

Further improvements for Agnes street were foreshadowed in a petition of Securities company, of Vancouver, and Arthur William & Co., of London, England asking to be appointed fiscal agents for the city, were referred to the finance committee. The same committee submitted a report on the matter of the upkeep of the ditches in Queensborough with regard to which the ratepayers of that place had approached them. These ditches have been flooding the surrounding land, and arrangements are being made that the New Westminster council keep them in order, as it seems they should do.

Widening Agnes Street.

Further improvements for Agnes street were foreshadowed in a petition of Securities company, of Vancouver, and Arthur William & Co., of London, England asking to be appointed fiscal agents for the city, were referred to the finance committee. The same committee submitted a report on the matter of the upkeep of the ditches in Queensborough with regard to which the ratepayers of that place had approached them. These ditches have been flooding the surrounding land, and arrangements are being made that the New Westminster council keep them in order, as it seems they should do.

Widening Agnes Street.

Further improvements for Agnes street were foreshadowed in a petition [illegible] considerable number of residents, that the street be widened to 80 feet, they themselves being willing to give the necessary seven feet from their respective properties, and also recommending that the B. C. E. R. be requested to lay a track along there while the street is being paved, so that they will not have to tear it up at a later date. The finance committee was asked to report on this, and also on a question of the registration of subdivisions immediately on their being passed by the council in accordance with a recommendation of the engineer.

Board of Works.

The following recommendations of the board of works were adopted: That the city horses should be insured against fire; that Bushby street be graded down to the level of the Hassam pavement on Columbia street; that Dufferin street from Wellington to Columbia streets be rocked; that School street be opened from Devoy to Richmond street, and that Fisher street, Sapperton be opened up. The matter of the banks on Library square was laid over for a week at Alderman John's request.

NEW ZEALAND VOTES DOWN PROHIBITION

New Law Fails to Get Necessary 60 Per Cent. of Ballots on the Referendum.

Wellington, N. Z., Dec. 11.—A proposal to adopt a general law of prohibition against the sale of alcoholic liquors throughout New Zealand has been defeated on submission to the people. The complete returns of a referendum held on the subject recently show that 283,864 persons voted for the measure, while 202,609 voted against it. The proportion of voters required by law in order to carry a proposition into effect is 60 per cent.

BODIES IN SIGHT

Magnitude of Tennessee Mining Disaster Apparent.

ALL HOPE NOW ABANDONED

Sixteen Have Been Recovered, But Black Damp Makes Recesses Impenetrable.

Briceville, Tenn., Dec. 11.—Sixteen bodies have been recovered from the Cross Mountain mine, and all hope of saving any of the 150 or 200 unfortunates caught in the workings has been abandoned. The disaster is a repetition of the Cherry and Naomi horrors, with the same growing list of fatalities, the same hundreds of homeless. Not a man could possibly live in the death fumes of black damp.

"It is like a cyclone inside, and as hot as a furnace. Bodies can be seen, but it is impossible to reach them. It will be days before the corpses are all removed."

That was the statement made by the leader of the government rescue crew when they came to the surface after their first descent today. Investigation was begun to determine whether negligence caused the disaster or whether the owners of the mine are guiltless. Experts say coal dust caused the explosion, but the officials refuse to make a statement. It is as yet unknown whether the mine was equipped with sprinkling apparatus or lacked this safeguard.

The government rescue crew has returned to the mine and is working two miles in.

When they came to the surface today they brought eight bodies with them, making a total of sixteen so far recovered. Eight were brought out yesterday.

While the rescuers work, a crowd of grief-stricken women and children is clustered about the pit mouth. Destitution follows in the wake of the death list. The average wage of the Cross Mountain miner is $35 a month. Some of the miners have families as large as eight and ten. They contemplated protesting against [illegible]

STORM SWEEPS ENGLISH CHANNEL

Heavy Loss of Life in Gale that Rose Early Sunday Morning—Coasting Craft Suffer.

Dover, England, Dec. 11.—More than a score of lives are believed to have been lost in a terrific gale which, for 36 hours, has swept the English channel. The shipping loss is enormous. One steamer is ashore at Dungeness, and another is broken up in Dover harbor. The captain of one ship and six members of her crew were washed overboard.

Many accidents have happened to small coasters and fishermen.

HOBOES CONTINUE TO LEVY TOLL IN DISTRICT

A report from Cloverdale states that on Saturday night the store of Mr. H. P. Parr was entered for the fourth time within a comparatively short period. A variety of articles of clothing were stolen with various other goods of a general nature.

Other burglaries committed in the district include one at Dewdney and one at Mission. In the former place the Dewdney Supply company's premises were entered, and some clothing was taken. While at Mission $5 in cash and some clothing were removed from Clarence Lane's store.

McMANIGAL WILL TELL ALL HE KNOWS

Los Angeles, Dec. 11.—Ortie E. McManigal will be taken to Indianapolis to testify before the federal grand jury regarding the alleged dynamite conspiracy.

"I'll tell any grand jury anywhere everything that I know," said McManigal. "I have nothing to conceal and I will consider it my duty to give the authorities all the information in my possession."

FERNIE YOUNG MAN SHOOTS HIMSELF

Fernie, Dec. 11.—William Bellen, a young man about 26 years old, who had been working but a few days as a driver at Coal Creek, was found dead outside the small shack where he had been living, in the Fernie Annex, yesterday morning about 8 o'clock by an Italian neighbor. A bullet hole through the heart and a Colt's revolver lying close by the body told of suicide. The young man evidently shot himself early Saturday evening.
