THE CORPORATION OF THE CITY OF NEW WESTMINSTER.

By-law No.

A By-law to enable the Council of the Corporation of the City of New Westminster to raise by loan the sum of $20,000.00 for the purpose of purchasing site and erecting Stable required for Stabling of City Horses.

Whereas it is necessary to purchase a site and erect a stable for the stabling and care of horses belonging to the Corporation and for the purposes aforesaid it will be necessary to expend the sum of twenty thousand dollars ($20,000.00).

And whereas it appears that if the said sum of $20,000.00 be appropriated from the general revenue of the City for the current year, the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And whereas for the payment of interest on the debentures proposed to be issued under this by-law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rate in addition to all other rates, each year during the currency of the said debentures, the sum of ten hundred and seventy-seven dollars and thirty-one cents ($1077.31).

And whereas in order to raise the said yearly sum of $1077.31 an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And whereas the whole rateable property of the said City, according to the last revised assessment roll thereof, is seven million two hundred and forty-nine thousand and ten dollars ($7,249,010.00).

And whereas the total amount of the existing debt of the said City is one million six hundred and seventeen thousand one hundred dollars ($1,617,100.00) irrespective of the sum of four hundred and seventy-two thousand dollars ($472,000.00) proposed to be raised under this by-law and the "Street Improvement By-law 1911," "Water Extension By-law 1911," "Parks Improvement By-law 1911," "Light Extension By-law 1911," "Storehouse By-law 1911," "Fire Debenture By-law 1911" and "Lulu Island Bridge By-law 1911," of which sums of the principal or interest is in arrears.

Now therefore the municipal council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate who may be willing to advance the same on the credit of the debentures hereinafter mentioned, any sum or sums of money not exceeding in the whole the sum of $20,000.00 and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made not exceeding in the whole the sum of $20,000.00 for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the seal of the Corporation, signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the First day of July, 1961, at such place or places as the council of the said Corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of four and one-half per centum per annum, payable half-yearly on the First day of January and the First day of July in each and every year, and the debentures shall have attached to them coupons for the payment of interest, which said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the City, sufficient to pay the interest upon the debentures and to create a sinking fund for the payment of the principal thereof when due, subject to any act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures, the sum of $900.00 for the payment of interest thereon, and the sum of $177.31 to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows and not otherwise: towards paying the cost of the passing of this by-law and the issue and sale of the debentures therein referred to and all expenses connected with the issuance of the said loan, and the balance shall be paid over from time to time as required upon the order of the trustees by the City Treasurer to the several persons to whom moneys are payable.

7. This by-law shall take effect on the day of , 1911, and may be cited as the "Stable Debenture By-law 1911."

8. This by-law before the final passing thereof shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the day of , 1911.

Reconsidered and finally passed in open council the day of , 1911.

THE CORPORATION OF THE CITY OF NEW WESTMINSTER.

By-law No.

A By-law to enable the Council of the Corporation of the City of New Westminster to raise by loan the sum of $15,000.00 for the purpose of erecting a Storehouse for the storage of Goods, Wares, Merchandise, Tools and other property belonging to the Corporation.

Whereas it is necessary to erect a storehouse for the storage of goods, wares, merchandise, tools and other property belonging from time to time to the Corporation; and for the purpose aforesaid it will be necessary to expend the sum of fifteen thousand dollars ($15,000.00).

And whereas it appears that if the said sum of $15,000.00 be appropriated from the general revenue of the City for the current year, the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And whereas for the payment of interest on the debentures proposed to be issued under this by-law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rate in addition to all other rates, each year during the currency of the said debentures, the sum of eight hundred and seven and 97-100 dollars ($807.97).

And whereas in order to raise the said yearly sum of $807.97 an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And whereas the whole rateable property of the said City, according to the last revised assessment roll thereof, is seven million two hundred and forty-nine thousand and ten dollars ($7,249,010.00).

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate who may be willing to advance the same on the credit of the debentures hereinafter mentioned, any sum or sums of money not exceeding in the whole the sum of $15,000.00, and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

6. The proceeds of the sale of the said debentures shall be applied as follows and not otherwise: towards paying the cost of the passing of this by-law and the issue and sale of the debentures therein referred to and all expenses connected with the issuance of the said loan, and the balance shall be paid over from time to time as required upon the order of the trustees by the City Treasurer to the several persons to whom moneys are payable.

THE CORPORATION OF THE CITY OF NEW WESTMINSTER.

By-law No.

A By-law to enable the Council of the Corporation of the City of New Westminster to extend for other purposes the money raised under By-law No. 41, passed the 30th day of August, 1909, for the purpose of building an Incinerator.

Whereas on the 25th day of August, 1909, a by-law was submitted to the electors for the purpose of raising by loan the sum of twenty thousand dollars ($20,000.00) for the building of a public incinerator for the distribution of the refuse, and the said by-law received the assent of the electors of the City of New Westminster and was reconsidered and finally passed on the 30th day of August, 1909.

And whereas for divers reasons it has been found impracticable or undesirable to expend the said sum of $20,000.00 in building the said public incinerator and the said sum so borrowed and raised under the provisions of the said by-law is now on hand and unexpended.

And whereas it is expedient to expend the sum of five thousand dollars ($5000.00) in the purchase and procurement of a garbage collecting plant for the said City and to expend the sum of fifteen thousand dollars ($15,000.00) in procuring of plans, reports of expert engineers and other incidental expenses of a comprehensive harbor scheme for the City of New Westminster and the waters of the Fraser river adjoining the said City.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. The Council for the Corporation of the City of New Westminster shall purchase a garbage collecting plant for the collection of garbage and refuse in the City of New Westminster and for the payment of the same shall expend the sum of $5000.00 out of the money borrowed and raised under the provisions of By-law No. 41, "Incinerator Debenture By-law 1909."

2. The Council of the Corporation of the City of New Westminster shall procure report or reports of expert engineer or engineers, plans, profiles and other necessary or useful reports or information for the procurement and establishment of a comprehensive scheme for a fresh water harbor at the City of New Westminster and in the waters of the Fraser river adjoining the same, and for payment of the cost of and incidental to the said harbor scheme shall expend and use the sum of $15,000.00 borrowed and raised under the provisions of By-law No. 41, "Incinerator Debenture By-law 1909."

3. This by-law shall take effect on the day of , 1911, and may be cited as the "Garbage Plant Harbor Scheme By-law 1911."

4. This by-law before the final passing thereof shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors the day of , 1911.

Reconsidered and finally passed in open council the day of , 1911.

SHERLOCK HOLMES RIVALLED BY FILMS

PARIS POLICE TO USE NEW DETECTIVE IN CHAMPAGNE RIOTS CASE—VARIED OPINIONS AS TO MERITS.

Paris, June 4.—Sherlock Holmes and all that galaxy of dead-eye detectives have been entirely outdone for cocksureness in arresting culprits and gathering evidence against them. The new hero is the motion picture machine. "Detective Cinema," as the French call him. And thereby hangs an awful row.

During the "champagne riots" in the Marne and the Aube districts, several Paris firms of motion pictures sent operators down there for "news pictures." These firms are vying with the daily newspapers here for telling the news, and when a startling event happens in the afternoon, the boulevard motion picture theatres the next day show it in all its details. Paris newspapers usually are a day later than this. The "champagne riots" made a good "story," and the cinematograph "editors" went for it strong.

It happens that the police were eager to make arrests of many engaged in the riots, especially those who took the lead and set fire to or plundered champagne cellars and warehouses. Evidence was hard to get together, that is evidence that was indisputable, for in crowds of 20,000 or 30,000 people it was hard to say that this man and that man did the dirty work.

Use of Pictures.

But when the motion pictures began to unroll their films to public gaze, a brilliant idea struck the police. They visited several performances, taking with them a few old inhabitants who were personally acquainted with all the folks in the surrounding country. As the show proceeded, first one, then another of the men would exclaim:

"Oh, look! There's Pierre Durand setting fire to the warehouse!"

"See there! Paul Vouvrier is bursting open hogsheads of wine!"

"And there's Eugene Marcelle, Tomas Toutee, Georges Lapauze, Alphonse Ganay, Gaston Roger, etc., battering down the doors of the Bubbly Wine company!"

The police wrote down these names, and later made wholesale arrests. The motion picture films will be introduced in court as evidence at the trials of these unhappy people, this being the first time in history a criminal proceeding had for an "eye-witness" a motion picture machine.

Opinion Divided.

Opinion is greatly divided as to the worth of this new detective. Chief Hamard, of the Paris detective bureau, declares even this evidence is not conclusive, though he regards it as very important. While a single picture might be snapped to show a perfectly innocent man in an attitude utterly incriminatory, a series of pictures would not permit of this. At the same time even motion pictures may be faked.

"Many a time I have seen photographic tricks of the kind exposed," the chief smiled. "Alleged detectives go to a husband and say: 'Sir, your wife is false to you.' 'Never!' says the husband. 'Certainly,' replies the hold-up man, 'and here's the picture which proves it!' He produces a photograph, seemingly genuine, of the man's wife emerging from a house, holding the arm of a male escort. The trickster has simply substituted on the negative the face of a man's wife for the face of the woman who posed for the picture, dressed like the man's wife dressed."

WIRELESS FROM CAPE BRETON TO AFRICA

Halifax, N. S., June 1.—Communication has been established between Cape Breton and Africa, and a message sent from the Glace Bay Marconi station direct to the Eiffel Tower, Paris, has been relaid within one hour to Daker, on the coast of Western Africa.

A large staff of operators are on duty, handling press and commercial business sent for the old country, and that transmitted from the mother country.

Sold Ice Cream on Sunday.

Kingston, June 4.—A fine of $10 and costs was imposed upon D. Campbell, proprietor of the Grosvenor restaurant, Princess street, by Police Magistrate Farrell for the illegal sale of ice cream on Sunday. The decision of the magistrate was that a person could not sell ice cream or soda water in a room devoted for that purpose alone, even though in another room regular meals were served. An appeal will be taken.

GOVERNMENT STOP SALE OF A BUNYAN RELIC

London, June 4.—The sale of John Bunyan's copy of Fox's "Book of Martyrs," with which the former consoled himself while in Bedford Prison, was stopped at Sotheby's by order of Sir Rufus Isaacs, the attorney-General. This action on the part of the government was the result of the outcry that the work should not be sold, but that it should be preserved as a national possession. The attorney-general is considering the question of the legality of the action of the trustees of the Bedford Literary Institute in ordering the sale.

The history of the volumes can be traced back to 1780. They were purchased by public subscription for $225 in 1841 and presented to the Bedford Literary Institute.

SAHARA MAY BE PLACE FOR INVALIDS

GOOD FOR RHEUMATISM AND LUNG TROUBLES SAYS DOCTOR JUST RETURNED—CAMPED OUT FOUR MONTHS.

New York, June 19.—Dr. Delano Fitzgerald, of Baltimore, who has returned by the French liner La Touraine, speaks highly of the curative effects of camping in the Sahara, where he spent four months recuperating. He indorses the views of travelers in the desert who have arrived here recently and declared that there was a sort of a rejuvenating force in the dry air. When J. Pierpont Morgan and his party were going up the Nile the doctor was going down. Reports from the Morgan party represented Mr. Morgan to be in excellent health.

The outfit of the doctor consisted of several tents, including one for sleeping and one for dining. The tents were of duck and were decorated inside with texts from the Koran and pieces of colored cloth that gave the interior a crazy quilt aspect.

The dragoman in charge of the doctor's "crew," as he called them, was a strapping athlete who could rise from a sitting posture with one man on his head and two standing on his hands. He kept his assistants in order. He was an Arab and called himself Abdul Sarsan el Garber. Although the camp, called the "Juliet," was made up of men, boys, camels and donkeys, the doctor said the whole outfit cost him very little more than he would have had to pay in a good American hotel, and if he had had another person with him to share the expense it would have cost each less.

Camping for Cures.

Camping in the desert is becoming popular, he said. It is recommended for rheumatism and pulmonary trouble and the doctor believes that it is better for the latter than for any other ailments. The temperature in the places where he pitched camp varied in the daytime between 72 and 75 degrees and at night it dropped to 48. It was necessary, therefore, to dress warm for night, wearing a sort of sweater, and cool for the day. The cook of the camp was an Arab, said to have had twelve years' experience in Paris, but preferred the desert to the crowded and unhealthful city. He made life on the sands seem when dinner time arrived a cosmopolitan luxury.

There were some unpleasant festures, among which were the sandstorms that came up about every two days, spoiling clothing and matting the hair. Hyenas and wolves visited the camps occasionally and were shot by members of the crew. A water supply was not always close at hand. When the camp was struck it was amidst it was a short haul for the carriers of the water casters, but at Assuan the haul was about a mile and a half. The water was pure.

Eye Disease.

The doctor said he established a large charity practice, examining about forty patients a day, all natives afflicted with conjunctivitis or some other eye disease. He found it difficult to impress upon his patients that cleanliness was one of the means of getting rid of disease. They disliked to wish out their eyes and were so indifferent about their condition that they would not even brush away the flies that alternately lit in their eyes and those of the donkeys. Dropsy seemed to be the ailment most affecting the natives to be had eyes.

The doctor said he believed he had the best dragoman in Egypt, and the cook simply could not be described. He was a fisherman as well as a cook and knew how to bring in fish and fix them with sauce the like of which the Pharaohs might have envied. The dragoman said that all the tents and crews had been let and that camping in the desert certainly had come to stay, to the enrichment of dragomans and the curing of well-to-do and adventuresome Americans.

JAPANESE BELLBOY MAKES RAPID RISE

Boston, June 15.—A good-looking, quiet-mannered Japanese who usually sat on the end of the bell boys' bench waiting for the call of "front" in a Boston hotel, will carry bags for guests no longer. It became known yesterday that he sailed on the Royal Saturday on his return to Jap, an, where he will be known as Prof. Yoshino Tanikwa, head of the department of philosophy in the University of Kyoto.

Yoshino, as he was known to the patrons of the hotel, received the degree of master of arts from Harvard University last year. After a year in the graduate school, having previously received his bachelor's degree at an educational institution in Minneapolis, Minn.

The young Japanese refused to tell why he became a bellboy. When asked whether it was on account of the money he earned or the chance it gave him to study practical philosophy he merely smiled.

Prof. Tanikwa, who, in addition to being a student and bellboy, has also been a special commissioners of the Japanese Buddhist Charitable association, occupied a first cabin stateroom on the Romanic. He will return to Japan by easy stages, visiting the more important of the charitable institutions of the larger European countries.
