CALGARY, WEDNESDAY, JULY 17, 1912

ELEVENTH YEAR—No. 118

GREAT BRITAIN WILL MAKE PROTEST ON THE CANAL BILL THURSDAY

Communication is en Route; Will be Met in New York by Britain's Agent

Charge Will Hurry the Protest Directly to Washington for Submission to Knox

Knox Holds That the Subject Does Not Admit of Diplomatic Treatment

Document to be Acknowledged and Transmitted to the Senate and House

WASHINGTON, July 16.—The formal British protest against the Panama canal bill will reach Washington Thursday. The incoming mail steamer bearing the communication from the British Foreign office will be met in New York by A. Mitchell Innes, the British charge, who will bring the protest directly to Washington for submission to Secretary Knox.

As the state department has already decided that in its present condition the subject is not one admitting of diplomatic treatment, the protest will be merely acknowledged and transmitted immediate to the senate and house, probably accompanied by a special message from Presidents Taft.

Some officials believe that if congress will content itself with action upon so much of the canal bill as provides for the creation of a governing force for the waterway, the subject may be divested of the urgency which now attaches to it and the broad intention of the right of the United States to discriminate in favor of its own shipping may be left for subsequent consideration.

OWNERS OF PROPERTY MAY COMPEL THE CONTRACTORS TO MAKE GOOD

That is the Opinion of Acting Mayor James Hornby, on Sidewalks Defective

Ratepayer is the Man Who Stands Burden if Contractor Does Imperfect Work

How Careful Property Owner May Use an Ounce of Prevention to Advantage

Tomlinson Refuses to Give the Figures from Records of City Engineer's Office

THAT irate property owners and ratepayers may take the task of enforcing upon careless and negligent contractors the necessity of living up to their specifications was pointed out yesterday by Acting Mayor James A. Hornby, late chairman of the special investigating committee.

"Several years ago," said Mr. Hornby yesterday, "when a good deal of sidewalk was laid that proved defective, some was put down past my property. I noticed that the contractor apparently was not using the proper care and materials and made a strong protest to him. The result was that the sidewalk by my place turned out pretty well."

Mr. Hornby's reference was called forth by a telephone message from some unidentified property owner who declared that the sidewalk laid on Fifteenth avenue, between Centre street and First street east, was in a defective condition, though it had been laid less than 60 days. This walk, according to the records, was in the contract allotted to the Frank Fehrenbach company. A city inspector was sent to look into the matter and reported that the walk

SUNNY ALBERTA GAZES WITH GLEE AT HIS LARGE AND GROWING FAMILY

FIRST DEMONSTRATION OF NATURAL GAS TONIGHT

Designed to Show Natives the Illuminating Qualities of New Product

Gas Actually Arrived at City End of the Trunk Mains Yesterday

CALGARY will have its first practical demonstration of the natural gas piped from Bow Island to this city tonight when the Canadian Western Natural Gas Light, Heat and Power company will show the residents of this city the illuminating properties of the product of its wells.

The demonstration will take place at 10 o'clock this evening at a point on Ninth street east, just south of the Canadian Pacific crossing. A flow of gas will be ignited by employees of the company to let the people see for themselves just how natural gas will burn. It will give an idea of the volume of flow from the wells.

Commissioners and civic officials have been invited to witness the demonstration, and a similar invitation is extended to the citizens of Calgary.

Natural gas arrived at Calgary with the mains ready for immediate use, yesterday morning. During the next few days further tests of the city mains will be made, and within one week Calgarians will be in a position to partake of meals cooked over natural gas flames. The Canadian Western company has eighty miles of pipeline within the city limits at its disposal right now, and more mains are being installed every day. Work on more than 2,200 residence connections, applied for, has been under way for several weeks, and a large part of these will be ready for use when the gas is turned in next week.

Eleven Flowing Wells.

The Canadian Western company has eleven flowing wells at Bow Island, which are connected with the city by a pipeline 170 miles long. Twenty-five cities and towns between here and Bow Island will be supplied with natural gas by the company. The cost of the project will be approximately $4,000,000. Eugene Coste, of Calgary, is president of the company, which is backed by Canadian and English capitalists.

CALGARY'S ROD IS UP FOR A PERMANENT INDUSTRIAL EXHIBIT

Rumored That Institution May Occupy Present Quarters of the Y.M.C.A.

Building is Owned by Association; Site the Property of Canadian Pacific

Y.M.C.A. Figures on Building a New Structure Close to Public Library

In That Event Those Back of Exhibit Plan Might Purchase Old Y.M.C.A. Building

CALGARY is to have a permanent industrial exhibit before very long and if plans, rumored to be in course of perfection, do not miscarry, the present Y.M.C.A. building on Ninth avenue will be used to house the exhibits. In this event the Y.M.C.A. would immediately commence building upon the site owned by the association at present between Twelfth and Thirteenth avenues on Second street west.

The deal is as yet entirely in the infancy stage and the persons most interested will say nothing. But according to reports from semi-authoritative sources the situation is this:

A committee of well known men, closely identified with the Industrial bureau, were seeking a site for the permanent industrial exhibit building, and went to J. S. Dennis, of the Canadian Pacific, for assistance in solving the site problem. The Industrial at the present time has sufficient funds to erect a building.

The Y.M.C.A. does not own the site of its present home, the land being the property of the C.P.R. Mr. Dennis, it is reported, suggested to the members of the committee that waited upon him that it might be possible, in the event that the Industrial bureau should be able to purchase the Y.M.C.A. building, that the Canadian Pacific company could be induced to donate the site. Negotiations looking to the purchase of the Y.M.C.A. building are now reported to be under way. Here the situation rests at present.

It is the plan of the men interested to establish a permanent industrial exhibit, similar to the one in Winnipeg. This has proved such a marked success that it has been found necessary to arrange for additional buildings. The value of a permanent exhibit is recognized by industrial experts throughout the country, and business men are agreed that such an institution would be of great benefit to Calgary and all Alberta.

The present Y. M. C. A. building should make an excellent home for the exhibits. It is an attractive grey-stone building, spacious, and could at little expense be remodelled to fit the needs of an exhibition building. Its situation, lying close to the Canadian Pacific depot, is ideal, and that could be desired, for it would give an opportunity for tourists passing through Calgary to see the wonderful products of Alberta between trains.

HUDSON'S BAY EMPLOYEES OUTING TODAY

Two Hundred Gentlemen and Lady Adventurers Will Go Away to Banff Today

Gen. Manager Burbridge Wires Message of Felicitation to Local Staff

Three hundred employees of the Hudson's Bay company's stores, together with their friends, leave this morning at eight o'clock for Banff for a day's outing. The occasion is the third annual outing of the company's employees.

Manager J. Baker, of the Calgary stores, has made all arrangements for the excursion, and has also planned for a tempting array of amusements, consisting of swimming races, baseball, football and track and field sports.

General Manager H. E. Burbidge, of the Hudson's Bay company stores in the Dominion, wired a message of felicitation to the Calgary employees yesterday, wishing them a pleasant outing. The excursionists will return late this evening on their special train.

CHARLES DEWEY HILLES—former private secretary to President Taft, who has been appointed manager and chief organizer of the Republican campaign for the presidency.

CANADA IS UPPERMOST IN LONDON DISCUSSIONS

Fact Evident in Money Circles; Borden's Speech Stimulates Investments

Conferences of Ministers Informal; Nothing of Their Import Given Out

London, July 16.—Conferences between some and Canadian ministers today were of an informal character, and nothing was given out.

Canadian topics continue uppermost in general discussion, and this was reflected in money circles today. Canadian prospectuses of various kinds, principally western enterprises, are leading features. The striking figures and optimistic tone of Premier Borden's speech at the Canadian Club institute had a stimulating effect in regard to the Canadian investments.

Although that was not uppermost in the premier's mind, it had an electrical effect. A naval expert who knows the sentiment of officers of the fleet, states that many of these are declaring that they will go to Canada when retiring on the reserve list, for the two fold reason of a surety of material prosperity, and the best vantage ground from which to view the expansion of the empire in all overseas territories.

EXPERTS SAY GROWING WEATHER COULD NOT BE BETTER FOR THE CROPS

Saturday and Sunday Warm; Monday and Tuesday Cold and Just the Right Sort

World's Market With Ear to the Ground Takes Note and Prices Go Off

Reports of Bumper Crop in Canada Send Market Bulls to Commercial Cover

All Grain is Headed Out, Good Length and Looks Healthy; Farmers Sanguine

The fine weather of Saturday and Sunday with bright sunshine followed by the cool, dry weather of Monday and Tuesday, was exactly as if made to order for the farmers of Alberta, judging from the reports of correspondents of the Alberta Pacific Elevator company. Most of the correspondents' reports covering last week stated that the farmers had had sufficient rain and now wanted a little sunshine and dry weather. The wishes were answered and the cool weather now is exactly what is required to cause the wheat kernels to fill out solid and hard.

The rains and fine growing weather of last week are believed by many growers and grain handlers to have been responsible for the issue of orders in the wheat markets of the world on Monday. Reports of a bumper crop in Manitoba, Saskatchewan and the wheat growing states of the union received practical confirmation, following the fine weather in the Canadian west last week, from the wheat growers' point of view.

Reports Precede Clear Weather.

The reports compiled yesterday by the Alberta Pacific Elevator company cover the past week, and most of them were forwarded before the clearing weather set in Saturday. The district north of Alberta reports heavy rains, the correspondent at Carstairs writing that warm sunshine and dry weather are needed to hurry the crop along. At Crossfield, where most

(Continued on page 7)

PARLIAMENT IS PAID OFF.

Ottawa, July 16.—The accountant of the house of commons has just concluded the payment of sessional indemnity to members of parliament. The great majority of them drew very promptly, but some of the wealthier class delay indefinitely. While there are 221 members, indemnities are paid only to 219 individuals, as Sir Wilfrid Laurier and Sir Rodolph Forget each represent two seats. While the session lasted 139 days, there were but 75 sitting days. Absence without deductions is allowed for fifteen days. Fifty members were fined $10 a day for being absent for various periods in excess of the statutory allowance.

FEDERAL ELECTION NEXT YEAR PERHAPS

Ottawa Paper Thinks that Both Parties are Lining Up for Another Contest

Says Borden Has Promised to Submit His Naval Policy to the Country

Ottawa, July 16.—The Ottawa Free Press has been considering that both political parties are lining up for a general election in the fall of 1913. Whether the fall has gone out or not, says the Free Press, each party organization has received instructions to look carefully after the districts so as to be ready for any surprise.

In view of Mr. Borden's promise that he would submit his naval policy to the people, nobody here can understand how he can adopt a policy of contributions with a more vicarious status, properly later on without a general election. The program as outlined is that the party will come to the country in the fall with its naval program, approve and pass the redistribution bill, and go to the country in the summer of next year. Whether the Liberals will allow this program to be carried out, depends upon developments. They are certainly keen to again ask the arbitration of public opinion, especially in view of the provincial elections in Quebec and Saskatchewan and will put no obstacle in the way of such an appeal. But they will have considerable to say next session, both on the naval question and on the trade issue and warnings have been sent to the liberal members to prepare for a session lasting until July next, with steady fighting all along the line. So that next session promises to be as exciting as was that of 1911.

ARRANGING FOR THE COMING OF HIS ROYAL HIGHNESS, THE DUKE OF CONNAUGHT

Colonel Lowther, Military Secretary of the Governor-General, Visits Calgary in Connection With the Vice-Regal Itinerary; Committee Pledged to Secrecy

Canada's Governor-General, whose forthcoming visit to Calgary is being arranged for

IN order to make arrangements for the forthcoming visit to this city of His Royal Highness the Duke of Connaught, governor general of Canada, the duke's military secretary, Lieut. Col. Lowther paid a visit to Calgary last evening. Lieut. Col. Lowther arrived at 9 o'clock last evening and left at midnight on his preliminary tour of the provinces, arranging the itinerary of the governor general.

The duke's military secretary was in conference at the Alberta hotel during his stay here with the citizens who will arrange for the ceremonies including Alderman Whaley, chairman of the reception committee; Colonel Armstrong, Colonel Walker, Colonel Sanders, Mr. George Lane and City Clerk Miller.

The gentlemen in attendance at the conference were given minute instructions as to the program that will be carried out on the arrival of the duke in this city but all were pledged to secrecy.

125,000 VISITORS TO COME TO CALGARY

James Brewster of Banff Says That Number Will Pass Through This Year

Banff Visitation is Forty Per Cent. Heavier This Year Than Formerly

"One hundred and twenty-five thousand visitors will have passed through Calgary by the end of the summer season this year," said James L. Brewster, one of Banff's foremost residents, yesterday. Mr. Brewster is interested in the Mount Royal Hotel and a half dozen other big enterprises at the famous Canadian resort. He passed through Calgary en route to Montana on a short business trip.

"Travel this year through Banff has been forty per cent heavier than during any previous season," added Mr. Brewster. "It has been increasing at a decidedly pleasing rate for the past four years, but 1912 will see the travel of the preceding year almost doubled.

"Practically eighty per cent of the tourists are from America, and of this class sixty per cent hail from the big eastern cities such as New York, Boston and Philadelphia. The value of the visits of this class of people should not be underestimated. They are practically all wealthy people, and the men are shrewd, energetic and ever alert to the possibilities of a new country such as Alberta. Many of those who come on pleasure trips return to invest after they have seen what a wonderful country we have here.

"Banff is one of western Canada's greatest advertisers, for the wonderful resort brings a desirable class of people, and one whose money will aid greatly in the development of this country."

JUMPS IN ELEVATOR SHAFT

Vancouver, July 16.—Mistaking an opening into the elevator shaft at the city police station for a doorway, which might lead to freedom, Claude Thompson, colored, this morning jumped through it and fell to the bottom of the shaft when he made a break for liberty. The man was severely injured about the legs, and was removed to the hospital. Thompson caused a great deal of trouble when he was arrested by Constable McLeod on Seymour street about eight o'clock this morning.

E. E. TAYLOR IS SLATED FOR FEDERAL PLACE

Reported That He is to be New Ranch Inspector, Replacing C. Grayson

E. C. King, Active Conservative Worker, May Replace Stanley Robertson

The axe continues to fall on the heads of officials of the late government, and the workers in the Conservative party are receiving their rewards. The latest announcement is that E. E. Taylor will replace C. Grayson as ranch inspector for Alberta, and that E. C. King, who was very active in supports of the Conservatives at the last election, will succeed Stanley Robertson as assistant.

RECOMMEND DISSOLUTION OF STEEL TRUST

Stanley Committee Makes Two Reports but Both Condemn Great Octopus

Majority Proposes Remedial Legislation; Minority of Republicans Opposes

Washington, July 16.—Although it is assured that Jr. Stanley commitee's long investigation of the steel trust will result in at least two reports to Congress—one by the Republicans and the other by the Democrats of the committee—it was disclosed today that both sides will agree to recommendations that the United States Steel Corporation be dissolved, and endorse the anti-trust suit against it.

The minority report will agree with the majority report that the corporation is in contravention of the Sherman law.

The minority however, will not sign the majority report which will contain suggestions for remedial legislation. The majority will propose one set of bills to meet the situation disclosed by the investigation, and the minority will propose another.

WHAT THE GREAT WEST DID YESTERDAY

In Calgary:

Industrial Development Bureau entertained and banqueted the members of the Chicago Association of Commerce on tour of Western Canada. Natural gas turned into Calgary mains within a week. Means greatly reduced price from the present.

In Winnipeg:

Site purchased for the railway supply factory. Lumber mill announced to cost $70,000.

In Moosejaw:

Saloons on in full swing. Canneries all along the coast making a big pack.

In Vancouver:

Fifty stamp mill for Bridge River mine, following the recent rich strike. Immigration hall authorized for Vancouver; cost $300,000. Railway line announced over Kicking Horse pass. San Francisco newspapers now printed on paper manufactured at Powell river mill, near here.

In Nanaimo:

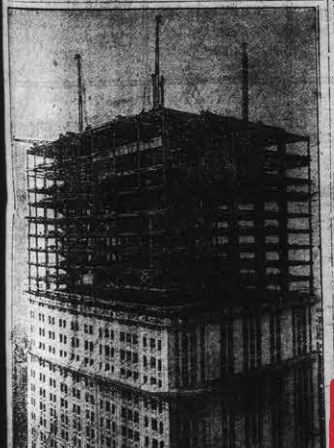

Farmers are awaking to the desirability of mixed farming methods shown by the creamery just opened, already paying over two hundred dollars bi-weekly to patrons.

In Lethbridge:

Natural Gas company lets contract for twenty miles of mains at Lethbridge. Domestic rate set at thirty-five cents a thousand feet.

TAFT'S MAN JOINS T. R.

Washington, July 16.—Herbert Knox Smith today resigned as commissioner of corporations.

BUILDING THE HIGHEST STRUCTURE IN THE WORLD—To have sixty storeys and contain forty thousand tons of steel. This shows the twenty-sixth floor of the Woolworth building now being put up in New York City. This building in Park Place, Broadway, New York, will be famous not only because it will be the highest office building in the world, but will be the first of such "would scrat chers" to recognize the development of aerial navigation. Three hundred and seventy-five feet from the ground (about half way to the eventual top—this building will have a landing place for aeroplanes on its sub-roof. Above the roof proper there will rise a tower to the elevation of 700 feet above the sidewalk, and surmounted by a huge electric light to guide bar-faced air travellers.

Coming out every time you comb it—is the falling hair making that beautiful thick and wavy hair that you are so proud of and treasure so much?

You can stop the falling out and restore those *gray* hairs to their natural color just as soon as you begin to use HAY'S HAIR HEALTH. Don't delay—don't run the risk of losing altogether, with thin, scraggly, gray hair your beauty and youthful appearance.

Keep your hair natural colored, thick and glossy, and you will always keep your good looks. It is not a dye.

IMMEDIATE FIFTEEN MILLION DONATION SAID TO BE PROGRAM

Ottawa, July 24.—The Evening Free Press says that an immediate contribution of ten or fifteen million dollars, and a special session of the dominion parliament to pass such a contribution, is the evident meaning of the statements of the British ministers in the naval debate at Westminster yesterday, as the agreement which has been reached between Mr. Borden and the British cabinet on naval issues.

The Free Press adds:

"No confirmation of the report that the house will meet in October can be obtained in official circles. On the other hand, it is pointed out that, with the regular session opening in November, no material advantage could be gained by calling the house together one short month earlier. Besides the prime minister is likely to be fully occupied in preparing the heavy legislative bill of fare and the estimates.

SEVERAL LABOR DISPUTES ARE BEING HEARD

Unusual Number for Time of Year Reported to Labor Department

Board of Three Composed to Consider Telegraphers' Case

Ottawa, July 24.—There is an unusual number of labor disputes for the time of the year reported by the labor department. At present several arbitration boards are either working or have not completed their work. The most important dispute is that involving the C. P. R. telegraphers. Today the department appointed a board to settle the trouble, which involves questions of both wages and conditions of labor on the coast.

Telegraphers all along the C. P. R. system are affected. Peter McDonald of Toronto is chairman, J. E. Duval has been appointed to represent the company, and J. J. O'Donoghue the men. The department has also named two men in connection with a dispute at Halifax between the Halifax tramway company and its employes. G. S. Campbell will represent the company, and John T. Joy the men.

Application has been made for a board at South Porcupine, where there is a dispute at the MacKenzie mills, but only forty men are involved in that dispute. There are nearly a thousand men, however, employed in the district, all of whom will be affected by the decision.

An arbitration board is working at the present time at Inverness on a dispute between the employees of the Inverness dock company and the company.

There is also trouble between the Consumers Gas company of Toronto and its men, which it is hoped will be settled without reference to a board.

ROYAL-TRADERS BANK MERGER ASKS APPROVAL

Ottawa, July 24.—Within a fortnight the application for approval of the Royal-Traders bank merger will come before the government. The procedure consists in filing with the treasury board all papers affecting the amalgamation, along with certain declarations. The recommendation of this board is a condition precedent to the government acting. What action will be taken cannot be predicted at this stage, but as the matter has doubtless been arranged, the approval resolves itself largely into a question of policy. Some objection to the principle of bank mergers has been uttered, but it is pretty certain that it will be ratified.

STRIKE FOR REFORM

Brussels, July 24.—A general strike in favor of electoral reform is expected in the spring. It is thought the men will be able to hold out for six weeks.

Zam-Buk

is the best remedy known for piles, fistula, heal rashes, eczema, sore feet, stings and blisters. A skin food! *All Druggists and Stores.*

SIR RICHARD M'BRIDE IS IN LOVE WITH NEW NORTH

British Columbia Premier Visits Country North of Prince Rupert

Says He Saw Evidences of Progress Everywhere and Faith of the Pioneer

Vancouver, July 24.—"We return from our two weeks' trip more than ever convinced that the New North has a great future ahead of it. Everywhere we went we saw evidences of progress and the faith of the pioneer, which means so much in any new country or district. We went over the northern portion of the province pretty thoroughly. We met most of the prominent men who are establishing industries up there and at all the places stopped at we were accorded cordial receptions.

The above observations were made by Sir Richard McBride last evening on his return from Prince Rupert. The Premier, who was looking in the best of health and spirits, was accompanied by the Attorney-General, Mr. Bowser, and Mr. W. H. Hayward, M.P.P. This was the first trip to the north country the Premier has undertaken in eighteen months, and he was emphatic in his expressions of satisfaction over the development going on.

In conversation with a representative of "The News-Advertiser," he recounted the chief incidents of the trip and added that not one disagreeable incident had occurred to mar its enjoyment. The journey north was made in the S.S. May with Captain McLeod in command. At Prince Rupert there was a public reception at the new Government Wharf, which was officially declared open by the Premier. It is he said, **the first concrete structure** of the kind on the coast and is a credit to the city. Captain McLeod was the first skipper to tie up at the wharf and everyone was pleased over this auspicious event. The return journey down the coast was made in the Prince George (Captain Mackenzie). Both going and coming the party was shown every courtesy, and the Premier says he desires to pay a tribute to the kindness of the officials and the comfort of the steamers.

"We journeyed up the Skeena River in company with Mr. W. C. Mohan, general superintendent. Mr. McMillan, sel. Mr. Alfred Carss, stipendiary magistrate of Prince Rupert, and others," continued Sir Richard. "We went up on the G. T. P. on the rail head near Hazleton and saw the bridge across the Skeena River, which has cost one million dollars. It is a magnificent structure with concrete piers. It has every appearance of stability and strength. We proceeded to Stewart over the Portland Short Line and while there inspected the Red Cliff mine.

"The Skeena River Valley is destined to be a fine agricultural district. Settlers are coming in fast and the land is being rapidly cleared. I predict that, it will become one of the very best sections of the province. All it needs is more time and more population.

"On arrival back at Prince Rupert we took the steamer Prince John for Granby and called at Port Nelson en route. At Granby there is a fine copper mine and our visit to it was of great interest.

"Among the other industries we inspected up north were the paper mills at Powell River and the Canada Fish and Cold Storage works at Prince Rupert. The latter is built of concrete and is the largest plant of its kind on the coast.

"Prince Rupert is growing steadily. Of course, at present everything is waiting for the completion of the Grand Trunk Pacific, but there is an admirable civic pride among the citizens and civic improvements and public buildings are a credit to them."

Sir Richard and Mr. Bowser left on the late boat for Victoria, the premier stating that next week several cabinet meetings would be held to deal with government business.

WASHBURN'S LIFE FLAME FLICKERS

Minneapolis, Minn., July 24.—William M. Washburn, whose death is momentarily expected at "Fair Oaks," his Minneapolis home, today is still alive and spent a comfortable night, though growing weaker. According to his physicians the end is only a matter of hours. The patient is displaying wonderful vitality.

NEW JERSEY STARTS THIRD PARTY MOVEMENT

Asbury Park, N. J., July 24.—New Jersey led the eastern states today in the new party movement when a mass convention launched an organization and decided to nominate a full state ticket for the November election. The convention decided to put on the ticket at a set of electors supporting Theodore Roosevelt and sent to the national progressive convention in Chicago the same set of delegates that represented them at the Republican national convention. They were pledged again to vote for Roosevelt as a candidate of the new party. Ex-Gov. J. Franklin Fort presided.

Luke McLuke Says

When a girl has a two-dollar pair of silk hose she likes to sit on a log, so front porch and expose them.

When she first sees it the marriage certificate looks like a $10,000,000 gold bond. But after she has had it for five years it looks like a two-cent stamp.

One reason why the suffragette movement doesn't get more votes is because the fact that a whole lot of women are kept busy raising prospective voters.

I wouldn't mind giving the suffragettes the right to vote, but as soon as they get it they will want the franchise extended to take in their dogs, cats and canary birds.

What do scientists know about life? They took a ball on the seven greatest wonders of the modern world the other day, and not a one of them mentioned the American girl.

I found out why the girls are wearing those broad tabs in the rear of their dresses. The wind blew one of them up the other day and she had a grease spot on the back of her skirt.

ROLLER CRASH Yard 12½c

TALKING DOG GAGS ON HAMMERSTEIN

Abe Levy Ties Don in a Knot Trying to Teach Him Willie's Real IMonkey

New York, July 24.—Loney Haskell and Abe Levy spent yesterday afternoon on the stage of Hammerstein's Roof teaching Don the talking dog some new words. According to Haskell before the first week of the dog's engagement is completed the canine will be able to hold a conversation on the topics of the day.

"One thing sure," said Haskell, "he will be a baseball fan. I had him out Automobiling one day when a traffic stopped the car in front of a baseball bulletin he looked around at me and said: 'Rah! Rah! The Giants are ahead.'

"Now the case with the dog is exactly the same as with a child if you want to teach it to talk," continued Haskell. "I propose to have him say 'Bull Moose' for you.

Loney sprawled himself out on all fours and, looking the dog in the eye, commenced repeating "Bull Moose," but nary a word did the dog say. He did not even attempt to talk. Finally Haskell turned to Levy.

"Doggie Says Hammerstein."

"Abe, see what he will do for you."

he said. "Maybe he will talk if you ask him."

Levy patted the dog on the head and whispered softly in his ear "Bull Moose." Don carefully lifted his paw, showing a long white tooth, and emitted a low growl.

"Well, Loney, he knows who I mean, all right. Now I'm going to try him out with this name," exclaimed Levy, elated with his success, "and if he will say it, oh! it he only will say it."

"Say what," inquired Haskell.

"W111-: Ham mer stein."

At the mention of the name both press agents grew more eager than ever. They approached Don and both of them again calibur him all the nice names they could think of.

"Now, Don," said Haskell as he gave the dog a piece of lemon pie, "repeat after me the most famous manager in vaudeville circles—Ham mer stein."

But Doggie Throws a Fit.

At the mention of the name Don began to snap. His face took on a treacherous look and his tail beat a tattoo on the floor. He gave a snarl and fairly lunged at the press agents. He rolled over and over on the stage and seemed to be in great distress. All the time he was attempting to say something, but could not make himself understood. Finally he was seized with a fit of choking, which lasted a few minutes. Just as he recovered from the attack his manager came on the stage. Immediately he knew something was wrong.

"What's the matter, Don?" he inquired of the dog.

The dog sadly shook his head and assumed an expression which was pitiful.

"I don't know what ails him," said Haskell. "I was trying to get him to say Hammerstein and he threw a fit."

"No, it wasn't a fit," replied the manager, "that's a hard name for him to say. It's quite probable that in trying to articulate properly and pronounce the name correctly he choked himself."

FOUR KILLED BY A POWDER EXPLOSION ON C.P.R.

Perth, Ont., July 24.—Four men were killed this afternoon in the railroad construction camp of Wheaton & Co., one of the contractors on the new Canadian Pacific line, which crosses from Gilmore to Belleville. The men

He Was Not a Convict.

Tramp—Madam, could you spare a poor man something to eat?

Mrs. Stingy—I will not, no matter what you say.

Tramp—No, thanks. I have to

were engaged in blasting and had poured about half a can of powder into one hole, which they proceeded to plug. Without waiting the powder exploded, killing four men and throwing another, who was standing by about thirty feet. Two of the men killed were foremen, the other two being laborers. Peter Perth and J. Robertson of Kingston. The whole gang of men employed by Wheaton & Co. had a narrow escape, as there were nine of them standing close by, which were spared by the explosion, but not injured.
